

Alma[™]

For You. For Life.

Our
Products

Alma is a world-leading provider of energy-based solutions for the surgical, medical aesthetics and beauty markets, delivering cutting-edge technologies to our partners and customers.

We are firm believers in the power of progress, redefining the industry through an endless desire to innovate and drive the global industry forward.

Medical Aesthetics

Soprano Titanium Hair Removal, Reinvented.

A breakthrough hair removal platform that combines ultimate functionality with unparalleled comfort. Soprano Titanium leverages the benefits of three combined wavelengths, with an improved patient experience and a business-oriented approach, creating a unique and result driven new solution in the world of professional hair removal.

- TRIO 4cm² - A breakthrough applicator with an especially large spot size of 4cm²
- An advanced ICE Plus technology that continuously cools skin and facilitates range-controlled temperature throughout the entire treatment
- Includes two connectors, which enables two different applicators to be connected to the platform at all times
- Smart Clinic- a cloud-based business development tool that offers continuous access to live data through an application and online platform
- Equipped with a new large sized 15" Android screen, with pre-set parameters, which enables to enjoy a more intuitive, user friendly work experience

Soprano ICE Platinum The Power of Three

As an integrated solution, Soprano ICE Platinum combines the benefits of all 3 wavelengths, achieving excellent results to any mono-wavelength approach on its own.

- The most advanced, virtually painless laser hair removal solution
- Alma's ground-breaking patented SHR™ technology
- Trio clustered diode technology, harnessing 3 wavelengths: 755nm, 810nm & 1064nm, treating the widest range of skin tones and hair types
- ICE™ technology - simultaneous contact cooling
- Complete and effective solution for all skin tones, hair types and target areas (body & face)

Harmony XL Pro

Spectrum of Solutions

Harmony XL Pro offers a full spectrum of solutions and expanded opportunities that maximize your clinics' business potential.

- ClearSkin PRO - A breakthrough applicator offering outstanding proven result for skin rejuvenation through powerful energy emission
- Over 65 FDA cleared indications of skin remodeling, vascular lesions, pigmented lesions, skin tone & texture, hair removal, acne, tattoo removal and more
- Combined technologies for optimal clinical results
- ClearLift 4D - control precise depth of treatment

Accent Prime

Love your Shape

The most advanced workstation for body contouring, skin tightening and aesthetic enhancement, combines the latest innovations in Ultrasound and Radio Frequency (RF) technologies to deliver effective, highly customized treatments- with natural, long lasting results.

- Guided ultrasonic wave technology combined with AlmaWave 40.68MHz Radio Frequency technology for optimal long-lasting results
- Significantly reduced treatment time
- UltraSpeed applicator - with a large coverage rate for optimal results

Pixel CO2

Fractional & Non-Fractional Applications

An advanced technology with maximum versatility for dermatology & aesthetic procedures. The optimal mix of ablative and thermal effects and an array of applicators and treatment modes for highly tailored procedures.

- High power CO2 laser platform 30/60 watt for skin resurfacing, scar and lesion removal and skin remodeling
- Advanced laser scanner, featuring multiple footprint options for various indications (pixel, line, random)
- Optimal treatment results with minimal tissue damage using layer-by-layer ablation and depth penetration control

Legato II

Total Scar Solution

Combines fractional ablation with Alma's IMPACT skin barrier breakthrough solution to effectively treat scars, stretch marks and various skin imperfections- with minimal downtime.

- The optimal solution for scars, stretch marks and various skin imperfections
- Fractional Microplasma technology, ablates and heats the skin
- IMPACT trans-epidermal delivery of cosmeceuticals for enhanced treatment

DermaClear

The New Face of Fresh Skin

A powerful hydradermabrasion solution for extremely effective 3 step skin cleanings and nourishment. Perfect as a stand alone platform and as pre-aesthetic treatment for enhanced results.

- Unique 360° rotating tip for deep cleansing & optimal coverage. Made of flexible silicone material, the tip is soft and feels pleasant on patients' skin.
- The highest quality of designated solutions with each step.
- 3-in-1: Synergetic solution – exfoliation, cleansing & hydration
- High ROI, Minimal Risk

ALMA BEAUTY REMOVE

Highly Effective Hair Removal Solution

The combination of Alma's 810nm diode laser with patented SHR technology makes REMOVE a safe, reliable and effective laser hair removal solution.

- Featuring the 810nm "gold standard" diode laser
- Alma's Patented SHR™ technology
- Dual mode: SHR & HR

ALMA BEAUTY REJUVE

Wide Range Skin Rejuvenation Solution

A highly effective skin rejuvenation solution, used successfully in over 5,000 clinics worldwide

- Dye-PL and AFT technologies for optimal treatment of pigmented and vascular lesions
- High Power NIR technology for body and face contouring and skin tightening
- Portable system, for maximum mobility and flexibility

ALMA BEAUTY SPADEEP

Advanced Body Contouring & Skin Rejuvenation Solution

Utilizes concentrated thermal Radio Frequency energy for body & face contouring, skin tightening and skin rejuvenation.

- Innovative, powerful and advanced platform
- Alma's patented Unipolar technology combined with AlmaWave 40.68MHz enables deep & safe tissue heating for visible, long lasting results
- Multiple applicators for various patients, target areas and indications
- Depth control capability, offering 4 levels of tissue depth penetration

The Aesthetic Precision Line

A diverse line of products, specifically designed for a range of aesthetic skin improvement needs, offering the best solution quickly and safely.

PICO CLEAR Clearly Different

PICO CLEAR presents a new era in deep pigments shattering, offering optimal results for the removal of colorful tattoos and benign pigmented lesions with just few treatments.

- Shortest picosecond in the market
- Comprehensive solution for pigmented lesions & skin rejuvenation
- High peak power & double pulse technology
- Various wavelengths
- Versatile solution enabling multiple patient-tailored treatment options

ALMA-Q Maximum Power Triple Mode Laser System

ALMA-Q presents the most powerful triple mode Nd:YAG laser treatment solution available, featuring Q-switched, Long Pulsed and Quasi-Long Pulsed modes on a single, dedicated platform.

- Powerful and versatile solution for a wide range of aesthetic dermal indications - skin remodeling, vascular lesions, pigmented lesions and tattoo removal
- Powerful triple mode laser system featuring Q-switched, Long Pulse Nd: YAG laser and Quasi-Long Pulse modes
- Double pulse technology
- Safe & effective for all skin types

SINON II Q-Switched Ruby Laser System

The SINON II Q-switched Ruby laser (QSRL), with an optimal 694nm wavelength and an extraordinarily short pulse width of only 20nsec, is a safe and precise laser treatment solution available for pigmented lesions and multi-color tattoo removal.

- Safe and precise laser treatment for pigmented lesions and multi-color tattoo removal
- High pulse repetition rate and variety of spot sizes for faster treatment with excellent results
- Suitable for all skin types including darker skin
- Low fluence, single pulses and unique oval spot shape allows for detailed yet safe treatment

EXCIMER 308

A Complete Solution for Monochromatic UVB Therapy

A handheld system for intense monochromatic UVB therapy, treating autoimmune diseases of the skin such as Psoriasis and Vitiligo.

- Clinically proven effectiveness for Psoriasis and Vitiligo
- Small, mobile and easy to use Monochromatic UVB light therapy
- Cost-effective excimer technology

IDAS

Green Light for Mobile Laser Power

A powerful, portable LBO laser system with a 532nm wavelength, specially designed to treat superficial vascular skin changes of the face and body.

- Mobile LBO laser system
- High peak power of 8W and short pulses for effective treatments
- Lightweight, compact design, no setup required after transportation

ARION

High-end Solution for Hair Removal

ARION uses the power of the alexandrite laser to provide fast and effective hair removal as well as treatment of superficial pigmented lesions.

- Fast and powerful alexandrite laser for effective hair removal and skin pigmentation
- High pulse repetition rate and easy shifting between spot sizes allow faster treatments and deeper penetration
- Scanner for large-area treatments

BURANE II / BURANE II XL

Laser System for Classic Aesthetic Applications

A universal Erbium YAG laser system for classic aesthetic ablation. The Er:YAG laser is ideal for skin resurfacing, skin rejuvenation, smoothing of scars and removal of benign skin changes including those associated with aging.

- All-around solution for skin resurfacing, skin rejuvenation, smoothing of scars and removal of skin alterations
- 2,940nm Erbium:YAG laser system offers precise ablation without thermal damage to the surrounding tissue
- Triple mode technology: ablation mode, thermal mode and combination mode

Alma Surgical

Minimally-invasive laser solutions for Gynecology, ENT, Dermatology, Plastic Surgery & Phlebology, providing superior results and reduced treatment time for safer and more efficient practice and patient care

FemiLift

A Better Feminine Life

A state-of-the-art, minimally-invasive outpatient solution that incorporates CO2 technology to provide optimal feminine wellness at any age.

- Minimally-invasive CO2 laser solution for various feminine concerns: Stress Urinary Incontinence (SUI), Vaginal Atrophy, Dryness and Recurring Infections
- Pain-free, no downtime, outpatient solution
- Wide variety of applicators for optimal results including diagnostic probe, pre-set robotic applicator, tightening and rejuvenation applicators

BeautiFill by LipoLife

The Complete Solution for Liposuction, Skin Tightening & Fat Grafting

A complete, all-in-one solution covering all stages of liposuction, skin tightening and fat grafting procedures. An integrated solution of its kind combining multiple modalities in a compact, portable and neatly organized system.

- On-the-spot fat grafting with fat vitality higher than 95%
- Simultaneous lasing and suctioning for tighter skin and reduced treatment time
- Temperature control, vibration enhancement and face tightening add-ons for optimal results

ENTelligence

The Power of Precision

Supporting a wide variety of applications, accessories and surgical tools, and adaptable to most surgical microscopes, ENTelligence optimizes treatment results and opens the door to new possibilities in minimally invasive surgical care.

- Surgical precision CO₂ laser technology for ENT and oral indications
- Char-free tissue ablation, vaporization, incision, excision and coagulation
- Optimal treatment results and minimal tissue damage using layer-by-layer ablation and depth penetration control

VascuLife

EVLA by ALMA

The safest and most effective varicose vein solution available, allowing for complete and accurate treatment of great and small saphenous veins (GSV, SSV), yielding outstanding clinical results.

- 1470nm wavelength diode – ideal for EVLA tumescent techniques
- Unique robotic pullback system for steady, precise, fast and safe treatment of great and small saphenous veins (GSV,SSV)
- Homogenous ablation and immediate sealing of the vein using 3600 laser Angel™ emitting fiber

**We are Alma,
and this is what
we are about.**

**"It's not a faith
in technology.
It's faith
in people."**
